

Shot heard 'round the world day

To promote participation in the annual commemorative Shot Heard 'Round the World Day at public ranges across the United States, connecting participants with organizations that support safe, legal, and responsible forms of recreational shooting and firearm ownership.

What is Shot Heard 'Round the World Day?

A day where all Americans can take part in remembering and celebrating the birth of our nation by participating in a fun, recreational shooting event.

When is it?

April 19th; the day, in 1775, when America's fight for independence began.

Why?

To create a national recreational shooting day that brings Americans together to remember how our independence was won, and introduce new and lapsed enthusiasts to the fun of recreational shooting by connecting them to local clubs, ranges, and shooting sports retailers.

How do I get involved?
